

STORY » IMMERSE YOURSELF IN THE ENIGMATIC BEAUTY OF XURÉS: A JOURNEY WITH LIRIOS

Delve into the lands of southern Ourense, where nature reigns lush and let me introduce you to a truly extraordinary experience. I am Ana Canal Fraga, join me on this fascinating journey with Lirios do Xurés, an ecotourism and active-cultural tourism company that I have founded in these lands rooted in the heart of Parque do Xurés, on the border with Portugal. Get ready to discover the hidden treasures of this magical region as we delve into its rich heritage and connect with its vibrant community.

The Seed: Cultivating Rural Sustainability.

We are strongly committed to the rural world through programs that promote care for the natural and cultural heritage, as well as projects that seek local entrepreneurship and collaboration between entities and groups, thus helping the social and economic development of the region of Baixa Limia. From our beginnings, we wanted Lirios to be a big family, in which we could develop a friendship and unique encounters in nature, discovering at every step the heritage that surrounds us and learning every day, while continuing to advance in our work. We feel and strive for social commitment, offering quality leisure activities for families through educational and leisure projects that promote alternative training and rural development.

The Petals: A Multitude of Experiences.

Lirios do Xurés offers a wide range of services divided into three categories: Nature Tourism, Heritage, and Environmental Education. Let me guide you through stunning landscapes where you can observe the endemic flora and fauna that

inhabit Xurés. Take part in interpretive hikes of varying difficulty that will allow you to fully appreciate the beauty that surrounds you. Unleash your creativity through our craft workshops, delve into the rich ethnographic heritage of the region, or explore the fascinating world of mycology. And for those seeking tranquility, I will offer rejuvenating outdoor yoga sessions that will allow you to connect with nature on a deeper level. Embark on ethnographic routes that will unveil the mysteries of the past, from the megalithic history of Baixa Limia to the Roman influence in the Limia Valley. Discover medieval castles, marvel at the architectural wonders of the region, and let the past intertwine with the present.

The Root: Preserving the Essence.

Like the endangered flower of Xurés, Lirios are guardians of the region's natural heritage. With unparalleled knowledge of these mountains, I am dedicated to protecting their beauty from collectors and those who fail to appreciate their importance. My roots run deep, firmly planted in rocky and seemingly unproductive environments, but it is precisely from these challenging landscapes that our beauty and unique violet hue emerge. Our experiences embody authenticity, magic, and mystery, reflecting the very essence of Xurés itself.

Join us on this extraordinary journey, connect with the vibrant local community, and discover the hidden treasures of this land. Let me be your guide as you embark on an experiential adventure, where each step reveals the rich tapestry of this extraordinary destination.
